BIOTECHNOLOGY ISN'T
JUST ABOUT SCIENCE—
IT'S ABOUT CREATING
SUSTAINABLE SOLUTIONS
THAT DRIVE REAL-WORLD
IMPACT."**

INTRODUCTION

Peter Mponzi is an experienced Chemical Process Engineer and Biotech Consultant, specializing in bioprocessing, biofuels, and sustainable extraction technologies. With a strong background in R&D, process optimization, and industrial-scale implementation, he has worked across Europe, Asia, and the U.S., helping companies innovate and scale. His expertise spans biomass processing, green chemistry, fermentation, and high-value product development for industries including pharma, nutraceuticals, agriculture, and renewable energy.

Peter is passionate about developing cutting-edge solutions that enhance efficiency, sustainability, and commercial viability, making him a key asset for organizations seeking cost-effective and environmentally responsible innovations.

HOW I CAN HELP YOUR BUSINESS

- **Biotechnology & Bioprocessing** – Optimize fermentation, extraction, and purification processes for high-value ingredients in pharma, food, and nutraceuticals.
- **Sustainable Solutions** – Implement green chemistry, biofuels, and biorefinery technologies to reduce environmental impact while maximizing output.
- **Process Optimization & Scale-Up** – From R&D to industrial production, Peter ensures efficient, scalable, and cost-effective solutions tailored to your business needs.
- **Innovation & Technology Transfer** – Leverage Peter's expertise to drive cutting-edge product development, technology commercialization, and market entry strategies.
