INTRODUCTION

Raynier Reynders is a seasoned Transformation and Portfolio Delivery Leader, specialising in large-scale regulatory programs, operational risk transformations, and recovery of complex, politically sensitive initiatives across the financial, public, and technology sectors. A driver of strategic change, he has led high-impact programs for global banks, ministries, and payment institutions, with deep expertise in compliance frameworks such as AML, KYC, Basel IV, GDPR, and PSD2.

Raynier excels at restoring control—resolving failing programs, aligning C-level and cross-functional stakeholders, and embedding agile, governance-driven processes that ensure sustainable delivery and regulatory readiness. He brings a rare combination of hands-on program execution, board-level advisory experience, and deep domain knowledge in data, cloud, and compliance innovation.

HOW I CAN HELP YOUR BUSINESS

- **Strategic Program Recovery & Delivery** – Brings clarity, structure, and senior leadership to restore momentum in stalled or high-risk transformation programs across banking and public sectors.
- **Regulatory Change & Risk Execution** – Delivers complex compliance initiatives (AML, KYC, Basel IV, GDPR) with precision, aligning legal, business, and IT functions to meet strategic and regulatory demands.
- **Stakeholder Alignment & Political Navigation** – Resolves friction, builds trust, and secures buy-in across C-level, operational, and technical teams in politically sensitive and high-pressure environments.
- **Agile Transformation & Delivery Acceleration** – Embeds Agile, SAFe, and DevOps frameworks to drive transparency, speed, and accountability across complex delivery landscapes.
