**"EFFICIENCY ISN'T JUST
ABOUT CUTTING COSTS—
IT'S ABOUT CREATING
SMARTER, MORE AGILE
OPERATIONS THAT DRIVE
LONG-TERM SUCCESS."**

INTRODUCTION

With a strong background in operations management, process optimization, and business transformation, Shobhit Jain brings a wealth of expertise to organizations seeking interim management and consultancy support. Holding an MBA from Warwick Business School and a degree in Marine Engineering, Shobhit has successfully led efficiency-driven projects across maritime, aviation, and business consulting. His expertise in reducing operational costs, optimizing processes, and implementing AI-driven strategies has helped businesses enhance performance and profitability. Shobhit's experience includes key roles at CGI, ASM Maritime, and Fleet Management Ltd., where he led cost-saving initiatives, operational strategy execution, and digital transformation projects. His ability to navigate complex challenges, engage stakeholders, and drive sustainable improvements makes him a valuable asset for businesses looking to enhance efficiency and achieve long-term success.

HOW I CAN HELP YOUR BUSINESS

- **Interim Management & Consultancy** – Need an experienced leader to step in and drive results? Shobhit specializes in streamlining operations, optimizing processes, and managing transitions to ensure business continuity and growth.
- **Operational Efficiency & Cost Reduction** – With a track record of reducing operational costs, improving process efficiency, and driving AI-powered transformations, Shobhit helps businesses unlock hidden value and maximize profitability.
- **Stakeholder Engagement & Strategic Execution** – Whether working with cross-functional teams, managing high-stakes projects, or aligning business objectives with operational goals, Shobhit ensures seamless execution and measurable success.
